PART I - THE SCHEDULE

SECTION B - SUPPLIES OR SERVICES AND PRICES/COSTS

ARTICLE B.1. BRIEF DESCRIPTION OF SUPPLIES OR SERVICES

The NIH Long-Term Administrative Support Contract II (LTASC II) is a multiple award Indefinite Delivery Indefinite Quantity (IDIQ) contract. This contract provides on a long-term (not temporary) basis administrative support services across all of the National Institutes of Health (NIH) Divisions, Centers and Offices. The Contractors for this acquisition are required to provide administrative support personnel over the life of the proposed contract period.

ARTICLE B.2. PRICES/COSTS

The following Pricing Table contains the contract “Fully Loaded Fixed Hourly rates” for long-term administrative support services for NIH in various locations for one (1) base year and four (4) one (1) year options work to be performed within CONUS. Work is not guaranteed and will be ordered on a Task Order basis.

Required positions will be determined for each Task Order. One contract level Program Manager (Point of Contact) and one Deputy Program Manager will be considered key personnel. Please note, all positions may not be required in each location; but rates are required to allow for flexibility at the Task Order Level. The loaded rates are ceiling price rates and contractors may, at their discretion, elect to propose lower rates when responding to a request for a task order proposal.

Customers, contractors, and LTASC II staff will be required to use the e-GOS in order to participate in the task order process by registering as an e-GOS user, agreeing to system usage rules of behavior, and signing an electronic signature agreement. Future e-GOS refinements may include the implementation of digital signatures and would at that time entail a nominal cost to contractors to purchase and maintain appropriate security certificates.

b. The Contracting Officer is authorized to issue orders and provide written confirmation of oral orders, if applicable, under the contract.

ARTICLE G.5. TASK ORDER PROCEDURE

The Contractor is required to use the LTASC II electronic Government Ordering System (eGOS) for the purpose of:

• submitting questions relating to a TORP,

The TORP will provide detail of the specific services that will be required and the labor category of the position. Contractors shall use their Section B approved hourly rates when responding to a TORP. The Contractor may choose to discount their rate at the Task Order level, but shall not exceed the rates in the Section B pricing table for any Task Order.
All contract clauses contained the resultant contract shall be incorporated in the TORP and the resultant task order. If conflicts exist between the contract clauses and the information outlined in the task order, the resultant contract language takes precedence over the information in the task order.

Discussions with the offeror may be required by NIH to further assess the qualifications of a candidate that is within the competitive range. If discussions are held, the Task Order Contracting Official will notify the Contractor’s designated point of contact for the Task Order. The Offeror will coordinate all discussion requests with the administrative support personnel and Contractor Management staff shall attend all discussions. The Contractor will pay for all expenses related to these discussions.

Teleworking must be approved by the Task Order Contracting Officer. A report of telework activities shall be submitted by the contractor employee to the contractor Program Manager for each day telework is performed. ARTICLE H.15. REGISTRATION FEES FOR NIH SPONSORED SCIENTIFIC, EDUCATIONAL, AND RESEARCH-RELATED CONFERENCES

In accordance with the NIH Reform Act of 2006, P.L. 109-482, the NIH may authorize a Contractor procured to assist in the development and implementation of a scientific, educational or research-related conference to collect and retain registration fees from Non-HHS Federal and Non-Federal participants to defray the costs of the contract.

Whenever possible, the Contracting Officer, prior to each conference, shall provide the Contractor with uniform assumptions of the government's estimate of the registration fee offset to include in the costs estimate for the conference. This offset should be deducted from the total cost of the conference.

Prior to each conference, the Contractor shall submit a completed "Contractor Pre-Conference Expense Offset Worksheet" (Attachment provided in SECTION J) to the Contracting Officer's Representative (COR) and Contracting Officer. After the conference is held, the Contractor shall submit a completed "Post-Conference Expense Offset Worksheet" (Attachment provided in SECTION J) to the COR and Contracting Officer.

The Contractor shall collect and maintain current and accurate accounting of collected conference fees and conference expenses. The Contractor shall immediately notify the COR and Contracting Officer, in writing, if it appears the total registration fees collected will exceed the estimated total cost of the conference. If the registration fees collected are in excess of the uniform assumptions provided by the Contracting Officer, the Contracting Officer, shall, as necessary, modify the contract price to reflect the decrease in conference costs. If the registration fees collected are less than the uniform assumptions provided by the Contracting Officer, the Contracting Officer shall, as necessary, modify the contract price to reflect the increase in conference costs.

Although Contractors may bill for allowable conference costs as they are incurred, they may not submit a final invoice for the total costs of the conference until the "Post-Conference Expense Offset Worksheet" has been approved by the COR.
ARTICLE H.16. "OFF RAMP" OF CONTRACTORS

To ensure success of the LTASC II program, all LTASC II contractors are encouraged to be active in reviewing Task Order Requirement Package (TORP) and submitting proposals when there is a reasonable chance for award or submit a "No Bid" response.

Note: If the Contractor is not actively submitting proposals in response to TORPS in the Base and/or Option years, the Government reserves the right to terminate the Contractor from the Master IDIQ contract. A review of each contractor's performance will be performed at the anniversary of the contract award.

The off ramp provision will be in the best interest of the government to ensure the government maintain a qualified number of small businesses to facilitate adequate competition. Upon expiration of each period of performance of the contract, the LTASC II Contracting Officer will make the decision on whether or not to exercise a contractor's contract option to extend the contract's period of performance. The LTASC II Contracting Officer will rely heavily on a contractor's demonstrated past performance under the contract. The LTASC II Contracting Officer will review the contractor's overall performance, contractor adherence to contract terms and conditions, and compliance with other key contract provisions such as reporting requirements. The Government reserves the right to "off-ramp" the Contractor from the contract by permitting such Contractor's contract to expire instead of exercising the option.

ARTICLE H.17. "RAMP ON" OF CONTRACTORS

The LTASC II Contracting Officer (CO) will review every two years the total number of contractors to ensure adequate competition for task orders throughout the period of performance. The total number of contractors may fluctuate due to various reasons, such as general economic conditions, or other reasons.

If the LTASC II CO determines that it is in the best interest of the government to "Ramp On" to the multiple award IDIQ contract new contractors, the LTASC II CO has the discretion to announce "Ramp On" period at any time during the effective period of the multiple award IDIQ contract, but no earlier than two years from date of award.

The LTASC II CO will announce the "Ramp On" period by publishing a notice in Federal Business Opportunities.

The "Ramp On" period announcement will provide an estimate of the number of new awards that the LTASC II CO intends to make. Under the "Ramp On" period the LTASC II CO will issue a solicitation using substantially the same best value criteria as delineated in Section M of the solicitation. Any offeror meeting the eligibility requirements identified in the new "Ramp On" solicitation may submit a proposal in response to the solicitation. However, the LTASC II CO has the discretion to award more or fewer contracts than the number anticipated in the solicitation depending upon the quality of the offers received.

Any resulting contracts awarded under this provision will not exceed the remaining period of performance of the existing multiple award IDIQ contract. Any contractor receiving a contract under this "Ramp On" period will be eligible to compete on future task orders with the same rights and obligations of any other LTASC II contractor. Contracts awarded under this "Ramp On" period provision will share in the ceiling of the LTASC II contract and the overall ceiling of the basic contract will not be increased.

ARTICLE H.18. ORGANIZATIONAL CONFLICT OF INTEREST

The guidelines and procedures of FAR 9.5 will be used in identifying and resolving any issues of organizational conflict of interest at either the contract level or the task order level.

In the event that a task order requires activity that would create a significant actual or potential conflict of interest, the contractor shall:

1. Immediately notify the Task Order Contracting Officer of the actual or potential conflict, submit a plan for mitigation, and not commence work on any task order that involves a potential or actual conflict of interest until specifically notified by the Task Order Contracting Officer to proceed; or,
2. Identify the conflict and recommend to the Task Order Contracting Officer an alternate tasking approach which would avoid the conflict;

The Task Order Contracting Officer (or LTASC II Contracting Officer as applicable at the LTASC II level) will review the information provided by the contractor and make a determination whether the conflict of interest is significant, and whether to proceed with the task order, notwithstanding a significant conflict of interest, and as applicable, process a request for waiver pursuant to FAR 9.503

The Contractor shall not use library resources at NIH in a manner that exceeds the Fair Use limitations codified in 17 U.S.C. sec. 107 of the Copyright Act. Contractors shall not share access to library resources at NIH with, perform searches for, or provide results to, non-NIH users, i.e. collaborators at other universities or research centers.

ARTICLE H.22. TASK ORDER/DELIVERY ORDER CONTRACT OMBUDSMAN

In accordance with FAR 16.505(b)(8), the following individual has been designated as the NIH Ombudsman for task order and delivery order contracts.

ARTICLE H.23. SERVICE CONTRACT ACT

Labor is subject to the Service Contract Act (SCA).

The Contractor's hourly rates will remain fixed, unless the contractor can provide the burden of proof that their fixed hourly rates are under the Department of Labor Wage Determination. A Contractor requesting rate adjustment to their escalated fixed hourly loaded rates in Section B shall provide a written request with relevant supporting data.

All non-exempt labor categories listed under this multiple award IDIQ receive the following benefits in accordance with the Department of Labor Wage Determination under the Service Contract Act:
HEALTH & WELFARE: Life, accident, and health insurance plans, sick leave, pension plans, civic and personal leave, severance pay, and savings and thrift plans. Minimum employer contributions costing an average of $3.81 per hour computed on the basis of all hours worked by service employees employed on the contract.

VACATION: 2 weeks paid vacation after 1 year of service with a contractor or successor; 3 weeks after 5 years, and 4 weeks after 15 years. Length of service includes the whole span of continuous service with the present contractor or successor, wherever employed, and with the predecessor contractors in the performance of similar work at the same Federal facility. (Reg. 29 CFR 4.173)

HOLIDAYS: A minimum of ten paid holidays per year, New Year's Day, Martin Luther King Jr's Birthday, Washington's Birthday, Memorial Day, Independence Day, Labor Day, Columbus Day, Veterans' Day, Thanksgiving Day, and Christmas Day. (A contractor may substitute for any of the named holidays another day off with pay in accordance with a plan communicated to the employees involved.) (See 29 CFR 4174)

ARTICLE H.24. AD HOC OR SITUATIONAL TELEWORK

The Federal telework program and policies does not cover Federal contractors. However, this does not prohibit and should not prevent contractor employees from teleworking as appropriate. This provision authorizes telework in the event of hazardous road conditions in the winter months, an office move, a COOP exercise, or an emergency.

Telework arrangements for contractors should be negotiated with both the contractor's own employer and with the Task Order Contracting Officer Representative and Contracting Officer so policies and procedures are in agreement with all parties.

Telework agreement must be coordinated on a task by task basis as needed. Teleworking must be approved by the Task Order Contracting Officer. A report of telework activities shall be submitted by the contractor employee to the contractor Program Manager for each day telework is performed. The Contractor Program Manager shall submit the report to the Task Order Contracting Officer and Task Order Contracting Officer Representative by the end of each telework day.

ARTICLE H.25. RIGHT OF FIRST REFUSAL

In accordance with FAR Part 52.222-17 Nondisplacement of Qualified Workers and Executive Order 13495, the Contractor and its Subcontractors shall in good faith offer those employees (other than Key Personnel) employed under the predecessor contract whose employment will be terminated as a result of the award of this contract, a right of first refusal of employment under this contract in positions for which the employees are qualified. It is up to the contractor employee to decide what is best including any agreements they may have with their employer. The first refusal right is flowed down to the task order contract level.

ARTICLE H.26. REPLACEMENT OF SUBCONTRACTOR

Contractors that are awarded a contract based on a FAR 9.601 Contractor Team Arrangement with one or more companies as their subcontractor, in order to provide the full capabilities of the contract statement of work are required to obtain the LTASC II Contracting Officer approval prior to removing, replacing, or adding subcontractors. The Contractor shall provide a written request that includes the subcontractor capabilities in accordance with the scope of the contract and the subcontractor commitment letter.

According to the Paperwork Reduction Act, as amended, no persons are required to respond to a collection of information unless it displays a valid OMB Control Number. The valid OMB control number for this information collection is OMB No. 0348-0046. Public reporting burden for this collection of information is estimated to average 10 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Office of Management and Budget, Paperwork Reduction Project (0348-0046), Washington, DC 20503.
Format: Submit payment requests on Standard Form 1034, Public Voucher for Purchases and Services Other Than Personal, or the Contractor’s self-generated form provided it contains all of the information prescribed herein. DO NOT include a cover letter with the payment request.

Number of Copies: Submit payment requests in the quantity specified in the Invoice Submission Instructions in Section G of the Contract Schedule.

Frequency: Submit payment requests upon delivery and acceptance of goods or services unless otherwise authorized by the Contracting Officer.

Currency: All NIH contracts are expressed in United States dollars. When the Government pays in a currency other than United States dollars, billings shall be expressed, and payment by the Government shall be made, in that other currency at amounts coincident with actual costs incurred. Currency fluctuations may not be a basis of gain or loss to the Contractor. Notwithstanding the above, the total of all invoices paid under this contract may not exceed the United States dollars authorized.

Preparation and Itemization of the Payment Request: Prepare payment requests as follows:

Note: All information must be legible or the invoice will be considered improper and returned to the Contractor.

(a) Designated Billing Office Name and Address: Enter the designated billing office name and address, as identified in the Invoice Submission Instructions in Section G of the Contract Schedule.

(b) Contractor’s Name, Address, Point of Contact, TIN, and DUNS or DUNS+4 Number: Show the Contractor’s name and address exactly as they appear in the contract. Any invoice identified as improper will be sent to this address. Also include the name, title, phone number, and e-mail address of the Point of Contact in case of questions. If the remittance name differs from the legal business name, both names must appear on the invoice. Provide the Contractor’s Federal Taxpayer Identification Number (TIN) and Data Universal Numbering System (DUNS) or DUNS+4 number. The DUNS number must identify the Contractor’s name and address exactly as stated in the contract, and as registered in the System for Acquisition Management (SAM) database.

When an approved assignment of claims has been executed, the Contractor shall provide the same information for the assignee as is required for the Contractor (i.e., name, address, point of contact, TIN, and DUNS number), with the remittance information clearly identified as such.

(c) Invoice/Voucher Number: Identify each payment request by a unique invoice number, which can only be used one time regardless of the number of contracts or orders held by an organization. For example, if a contractor has already submitted invoice number 05 on one of its contracts or orders, it cannot use that same invoice number on any other contract or order. Payment requests with duplicate invoice numbers will be considered improper and returned to the contractor.

The NIH does not prescribe a particular numbering format but suggests using a job or account

NIH(RC)-2
Revised 7/2013
number for each contract and order followed by a sequential invoice number (example: 8675309-05). Invoice numbers are limited to 30 characters. There are no restrictions on the use of special characters, such as colons, dashes, forward slashes, or parentheses.

If all or part of an invoice is suspended and the contractor chooses to reclaim those costs on a supplemental invoice, the contractor may use the same unique invoice number followed by an alpha character, such as “R” for revised (example: 8675309-05R).

(d) **Date Invoice/Voucher Prepared:** Insert the date the payment request is prepared.

(e) **Contract Number and Order Number (if applicable):** Insert the contract number and order number (as applicable).

(f) **Contract Title:** Insert the contract title listed on the cover page of the contract and/or Section G of the Contract Schedule.

(g) **Current Contract Period of Performance:** Insert the contract start date/effective date through the current completion date of the contract.

(h) **Total Fixed-Price of Contract/Order:** Insert the total fixed-price of the contract/order.

(i) **Two-Way/Three-Way Match:** Identify whether payment is to be made using a two-way or three-way match. To determine required payment method, refer to the Invoice Submission Instructions in Section G of the Contract Schedule.

(j) **Office of Acquisitions:** Insert the name of the Office of Acquisitions, as identified in the Invoice Submission Instructions in Section G of the Contract Schedule.

(k) **Central Point of Distribution:** Identify the Central Point of Distribution, as specified in the Invoice Submission Instructions in Section G of the Contract Schedule.

(l) **Billing Period:** Insert the beginning and ending dates (month, day, and year) of the period in which costs were incurred and for which reimbursement is claimed.

(m) **Description of Supplies or Services:** Provide a description of the supplies or services, by line item (if applicable), quantity, unit price (where appropriate), and total amount. The item description, unit of measure, and unit price must match those specified in the contract. For example, if the contract specifies 1 box of hypodermic needles (100/box) with a unit price of $50.00, then the invoice must state 1 box, hypodermic needles (100/box), $50.00, not 100 syringes at $0.50 each. Invoices that do not match the line item pricing in the contract will be considered improper and will be returned to the Contractor.

(n) **Amount Billed - Current Period:** Insert the amount claimed for the current billing period, including any adjustments, if applicable. If the Contract Schedule contains separately priced line items, identify the contract line item(s) on the payment request.

(o) **Amount Billed - Cumulative:** Insert the cumulative amounts claimed to date, including any adjustments as applicable. If the Contract Schedule contains separately priced line items,
identify the contract line item(s) on the payment request.

(p) **Freight or Delivery Charges:** Identify all charges for freight or express shipments, other than f.o.b. destination, as a separate line item on the invoice. (If shipped by freight or express, and charges are more than $25, attach prepaid bill.)

(q) **Government Property:** If the contract authorizes the purchase of any item of Government Property (e.g., equipment), the invoice must list each item for which reimbursement is requested. Include reference to the following (as applicable):

- item number for the specific piece of equipment listed in the Property Schedule, and
- Contracting Officer Authorization (COA) Number, if the equipment is not covered by the Property Schedule.

SECTION C - DESCRIPTION/SPECIFICATIONS/WORK STATEMENT

ARTICLE C.1 INTRODUCTION

Background

The National Institutes of Health (NIH), part of the U.S. Department of Health and Human Services (HHS), is the prime Federal agency for conducting and supporting medical research. It is comprised of 27 Institutes and Centers (ICs) through which it conducts research on a wide range of issues. The goal of NIH research is to acquire new knowledge to help prevent, detect, diagnose, and treat disease and disability, from the rarest genetic disorder to the common cold. The NIH mission is to uncover new knowledge that will lead to better health for everyone. NIH works toward that mission by: conducting research in its own laboratories; supporting the research of non-Federal scientists in universities, medical schools, hospitals, and research institutions throughout the country and abroad; helping in the training of research investigators; and fostering communication of medical and health sciences information.

NIH is subject to the terms of the Federal Activities Inventory Reform (FAIR) Act. Under the provisions of the FAIR Act, the agency must undergo a “Competitive Sourcing” process which simply describes a systematic effort to have all commercial activities in the Federal Government periodically go through a process of competition.

In NIH’s negotiations with HHS and the Office of Management and Budget (OMB) regarding the competitive sourcing process, a number of administrative support positions were identified to be transitioned from government full time equivalent (FTE) to long-term contract as the positions are vacated by the current Federal employees. In addition to the positions to be filled as a result of the FAIR Act, NIH requires a vehicle to obtain other long-term administrative support services that are not inherently governmental. This acquisition is to obtain commercially provided administrative services on a long-term basis (i.e., from date of Task Order award through the performance period of the award resulting from this solicitation) across all of the NIH ICs and Offices for positions affected by the FAIR Act and for additional positions that are not inherently governmental.

ARTICLE C.2 SCOPE

This contract includes long-term administrative support, defined as at least twelve (12) months, to fill the needs of the positions that become vacant through FTE attrition. In addition, long-term needs for administrative support positions that are not deemed inherently governmental are included under the scope of this contract. Customer ICs can issue task orders against the contract; however, there is no guarantee of customer usage.
C.2.1 General Requirements

a. Contractor Personnel

The following requirements apply to contractor personnel assigned to this contract:

1. The Contractor shall provide English-speaking, skilled personnel with the capabilities necessary to successfully meet government requirements. This includes supervision/management staff as well as administrative support personnel. Required skill categories are defined in terms of typical duties and performance level standards.

2. The Contractor shall provide skill levels and labor mix appropriate for the task(s) to be performed.

3. The Contractor and Contractor employees shall conduct only business covered by this contract during periods paid for by the Government and shall not conduct any other business on government premises.

4. All Contractor personnel shall be eligible to legally work in the United States, but not a requirement of citizenship.

5. Contractor personnel are expected to pass a minimum background investigation and conduct themselves in a professional and courteous manner at all times. Federal regulations prohibit the use of any controlled substances and alcoholic beverages while Contractor employees are working on Federal property or in Federal installations. Contractor personnel shall be made aware of these requirements prior to placement. Inappropriate conduct and/or substance abuse will not be tolerated. The Contractor will be responsible for removing any individual violating these provisions from the government facility and taking other actions as appropriate. The Task Order Contracting Officer's Representative may request removal of a contractor employee for improper conduct. A security violation will require immediate removal.

6. To provide continuity of service to NIH Customers, Contractors are required to provide a qualified replacement administrative support personnel of equal level on-site within five (5) business days after the removal of the original employee under a Task Order.

7. If the Contractor personnel must speak and read in a language in addition to English, or have other required skills, the Government will state those requirements in the Task Order.

b. Supervision

This contract may not be used to provide personal services. Government personnel may not perform any supervisory functions for Contractor personnel. Under the task orders, all individual contractor employee assignments and daily work direction shall be given by the applicable contractor employee supervisor. Notwithstanding any other provision of this contract, the Contractor shall at all times be responsible for the supervision of its employees in the performance of the services required.

If the Contractor believes any government action or communication has been given that would create a personal services relationship between the Government and any contractor employee, the Contractor shall promptly notify the LTASC II Contracting Officer or the Task Order Contracting Officer.
c. Recruitment and Retention

The Contractor shall employ hiring and retention practices that allow the Contractor to identify, screen, place, monitor, train, and retain qualified candidates to fulfill service requirements under this contract. Contractors shall propose personnel that are capable of passing a minimum background investigation.

d. Training

The Contractor, at its own expense, shall perform training, except:

1. The Government will provide orientation and training on NIH-specific systems particular to the work to be performed by the Contractor.

2. The Government will not authorize training for Contractor employees to attend seminars, symposiums, or user group conferences unless required for the performance of a task order, and such training is approved in advance by the Task Order Contracting Officer's Representative and Contracting Officer.

3. When the Government has given prior approval for training to meet special requirements that are peculiar to a particular Task Order, attendance to training will be considered part of the task order performance of services.

e. Access to Federal Government Installation

Access to the worksite will be limited. Because this is a Federal Government installation, Contractor work hours will be limited to the hours of 6:30 AM to 6:00 PM, Monday through Friday.

The employee’s work schedule shall allow for the 10 Federal Holidays listed below.

- New Year’s Day (January 1)
- Martin Luther King, Jr.’s, Birthday (Third Monday in January)
- Presidents’ Day (Third Monday in February)
- Memorial Day (Last Monday in May)
- Independence Day (July 4)
- Labor Day (First Monday in September)
- Columbus Day (Second Monday in October)
- Veterans Day (November 11)
- Thanksgiving Day (Fourth Thursday in November)
- Christmas Day (December 25)

If the holiday falls on a Saturday, the preceding Friday is the holiday. If the holiday falls on a Sunday, the following Monday is the holiday. When Inauguration Day falls within the regularly scheduled tour of duty of an employee in the Metropolitan Washington, DC area, it is observed as a holiday. In the instance of unscheduled facility closing due to snow or other inclement weather, presidential order, or
other reason determined by the Office of Personnel Management, the Government shall not pay the Contractor for services not rendered. It shall be the Contractor's responsibility to determine how its employees are compensated for the day.

f. **Workload Management**

The Contractor shall implement management systems and controls for recording and monitoring workloads for all administrative tasks. A log of Contractor time spent on a task order contract shall be made available to the Government as requested.

**C.2.2 Specific Requirements**

The administrative support function is decentralized across NIH; therefore, each of the Agency’s 27 ICs, and the operating units under the ICs, may have slightly different needs. However, the following grouping of activities has been developed to indicate the types of services administrative support personnel working under a potential Contractor must be able to provide for this contract. It is important to note that the services are grouped based on similar tasks and not based on individual positions. Administrative support personnel in any labor category may be expected to perform some, many, or all of the services listed below; however, duties may not be limited to the services detailed but must be reasonably related to or encompassed by the labor categories described.

### C.2.3 Personnel Requirements

The Contractor shall provide personnel with the necessary skills and level of expertise required to support the tasks to be performed under the SOW.

#### a. Key Personnel

This contract requires at least one Program Manager and one Deputy Program Manager to be considered Key Personnel. Additional, non-key Deputy Program Managers may be utilized as deemed necessary by the Contractor over the life of the contract depending on Task Order requirements. Although the additional Deputy Program managers are not key personnel, they must still meet the educational requirements of the key Deputy Program Manager.

The Key Personnel qualifications listed below are a requirement for contract award. Failure to provide a proposal that offers key personnel with these qualifications will render the proposal unacceptable and ineligible for award.

**Labor Category: Program Manager**

The Program Manager will be responsible for the overall performance objectives, contract deliverables, quality control (QC), and the placement of qualified personnel on this contract. The Program Manager will serve as the Contractor’s authorized point of contact with NIH and shall
ensure contract compliance and satisfactory performance. This person requires a college degree and at least five (5) years of relevant experience or a high school diploma and ten (10) years of relevant experience. Relevant experience required for this position involves program management performing tasks such as staffing, budgeting, scheduling, and client interaction. Experience in a scientific research or clinical environment or a Federal agency is preferred.

**Labor Category: Deputy Program Manager**

The Deputy Program Manager will manage one or more Task Orders, depending on the Contractor's management structure. The Deputy Program Manager must have a working knowledge of the contract and some degree of authority to perform the Program Manager's role for limited periods of time when the Program Manager is unavailable. The Deputy Program Manager requires a college degree and at least four (4) years of relevant experience or a high school diploma and eight (8) years of relevant experience. Relevant project management experience performing tasks such as staffing, budgeting, and scheduling is required in this role. Experience in a scientific research or clinical environment or a Federal agency is preferred.

Based on future contract requirements, it may be necessary for a Contractor to assign additional non-key Deputy Program Manager(s) to oversee administrative support personnel either a) not accessible to the Program Manager (i.e., at a remote location) or b) located in a large concentration.

The Program Manager and one Deputy Program Manager shall be available for assignment to this contract on the effective date of the first Task Order award, and remain in their respective positions a minimum of twelve months. However, the Program Manager and the Deputy Program Manager are not required to be designated full-time on this contract (when off-site). The number of Contractor personnel and workload required shall determine the extent of time the Program Manager and Deputy Program Manager dedicate to this contract. Either the Program Manager or the Deputy Program Manager shall be available for consultation during regular business hours.

The personnel listed above are considered essential to the work being performed under this acquisition. Before removing or replacing any of the listed or specified personnel, the Contractor shall (1) notify the Government (the LTASC II Contracting Officer) reasonably in advance and (2) provide a detailed explanation of the circumstances necessitating the proposed substitution, a complete resume for the proposed substitute, and any other information requested by the Government necessary to approve or disapprove the proposed substitution. The Government will evaluate such requests and promptly notify the Contractor of approval or disapproval in writing. All proposed substitutions shall be determined by NIH to have qualifications and job status equivalent to the person being replaced. Discussions with the replacement may be required by NIH to further assess the qualifications of the candidate.

**b. Non-Key Personnel**

While not considered "Key Personnel" for the evaluation of proposals, the evaluation of the actual performance of the contract will depend greatly on the administrative support personnel provided by the successful Contractor. A brief description of the various levels of administrative support, including skill requirement, is given below. Examples of duties that may be performed under each category are described in the previous section. Support under this contract will include the following labor categories:
Labor Category: General Clerk I (Clerk 1)

At a minimum the Clerk 1 duties includes following a few clearly detailed procedures in performing simple repetitive tasks in the same sequence, such as aide in laboratory/clinical center, filing precoded documents in a chronological file or operating office equipment, e.g., scanner, photocopier, or printer. A minimum of high school diploma or GED is required.

Labor Category: General Clerk II (Clerk 2)

Follows a number of specific procedures in completing several repetitive clerical steps performed in a prescribed or slightly varied sequence, such as coding and filing documents in an extensive alphabetical file, data entry, simple posting to individual accounts, opening mail, running mail through metering machines, and calculating and posting charges to departmental accounts. Little or no subject-matter knowledge is required, but the clerk needs to choose the proper procedure for each task. A minimum of high school diploma or GED is required.

Labor Category: Administrative Assistant 1 (Admin 1)

The Admin 1 performs administrative functions. Duties include generic clerical skills such as greeting and directing visitors, fielding phone calls, scheduling meetings, responding to callers, taking minutes, composing memos, transcribing, developing presentations, generating reports, and monitoring invoices and expense reports. Must have basic computer skills to conduct internet research and perform data entry. Additional duties may include filing and faxing. A minimum of high school diploma or GED is required.

Labor Category: Administrative Assistant 2 (Admin 2)

In addition to the skills defined under the Admin 1 level category, the Admin 2 performs administrative and office support activities that require an ability to multi-task and assist multiple NIH employees at once. More advanced computer skills are required as the assistant will be required to perform word processing, spreadsheet management, and conduct more advanced internet research. Also, reviewing and disseminating memorandums to staff; conducting documents control for routing through office; preparing purchase request for small purchases, reviewing draft policies, standard operating procedures, and memorandums for grammar and format; coordinating travel and submitting data into the NIH travel system; compiling equipment requirements for office staff (e.g., laptops, printers, monitors); preparing training requests; and preparing matrix of office needs. Staff in this category must have a minimum of a high school diploma and two (2) years of related work experience.

Labor Category: Senior Administrative Assistant (Admin 3)

In addition to the skills defined under the Admin 2 level category, the senior administrative assistant is expected to perform more complex administrative tasks and will typically be supporting senior-level staff. Responsibilities include those described for administrative assistant but require more work experience within each function. Advanced computer skills and internet research skills are required. The position requires the assistant to perform a variety of administrative functions such as creating and analyzing written documents for dissemination to
leadership, compiling information for outside inquiries and reports, and developing and maintaining tracking tools to be used for reporting data. A high level of creativity is expected. Prior work in a scientific research environment for a large Federal agency, as well as a firm knowledge of business administration is desired. A college degree or a high school diploma and four (4) years of related work experience are required for this position.

**Labor Category: Executive Assistant (Admin 4)**

The executive assistant performs administrative duties for executive management. Relieves the executive of administrative type functions in order to increase the time an executive has available for executive level responsibilities. This position requires the ability to perform all tasks of the other positions, but requires advanced computer and internet research skills. May handle a wide variety of situations and conflicts involving the clerical and administrative function of the office. Responsible for confidential and time sensitive material. Prepares routine and advanced correspondence including letters, memoranda, and reports. Relies on experience and judgment to plan and accomplish goals. Candidate should have the ability to work well with all levels of management and staff. Prior experience in a scientific research environment for a large Federal agency is preferred. A comprehensive understanding of NIH, its organization and culture is also desired. A college degree and four (4) years of related work experience or a high school diploma and eight (8) years of related work experience are required.

An administrative support position on an awarded task order can increase in level (Clerk 1 through Admin 4) during the life of the task order. Upon the request Task Order Contracting Officer’s Representative and approval of the Task Order Contracting Officer, an increase in level may occur if the individual in that position gains more experience or earns a degree while working on the task order qualifying him/her for the next level. Allowing this growth helps retain individuals that NIH customers have invested resources to train.

**C.2.4 Contract Level Management**

The Office of Acquisitions (OLAO) will provide contract-level management and oversight of the contract, while the customer (the ordering IC) will perform the day-to-day management and oversight of the Task Order. A Long-Term Administrative Support Contract (LTASC II) Contracting Officer’s Representative within OLAO will be designated to oversee and manage the contract and an LTASC II Contracting Official will perform contract administration duties. Responsibilities of the government LTASC II Contracting Officer's Representative are described in further detail in section G.

The LTASC II Contracting Officer's Representative will track and guide contract performance over the life of the contract. OLAO employs several methods and tools to assist this effort, in close concert with customer monitoring and evaluation efforts.

**C.2.5 Place of Performance**

Tasks will be performed across all of NIH’s Institutes and Centers. The majority of services will be provided in the Washington Metropolitan Area (including but not limited to Bethesda, Rockville, Frederick, Gaithersburg, and Poolesville,) and Baltimore; however, contract support will also be
required in facilities located in the following cities: Durham, NC; Cincinnati, OH; Detroit, MI; Framingham, MA; Hamilton, MT; and Phoenix, AZ.

The distribution of administrative support employees across the locations identified is unknown. Currently, the majority of NIH's Full Time Equivalent (FTE) employees work in facilities in the Washington Metropolitan Area. While this distribution of total FTE may or may not reflect the distribution of administrative support employees, NIH is providing this information to assist contractors in estimating their workforce requirements.

C.2.5.1 Contractor Obligation to Provide Reasonable Accommodations Clause

For the purposes of this clause, a contractor or covered subcontractor refers to a contractor or subcontractor at any tier performing in the United States, or a contractor or subcontractor at any tier performing outside the United States with employees recruited in the United States. The United States is defined as the several States, the District of Columbia, the U.S. Virgin Islands, the Commonwealth of Puerto Rico, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, and Wake Island.

Additionally, covered subcontractor refers to a subcontractor performing under a subcontract at any tier with a value that exceeds or is expected to exceed $10,000.

a) The Contractor shall ensure that all of its employees and covered subcontractor employees working under this contract are advised that it is the obligation of the Contractor and covered subcontractor to provide for their respective employees, upon request, reasonable accommodations for qualified individuals with disabilities under the Americans with Disabilities Act of 1990 (ADA), as amended, 42 U.S.C. §§ 12101 et seq., Section 503 of the Rehabilitation Act of 1973, as amended, 29 U.S.C. § 793, 41 C.F.R. Part 60-741, Executive Order 11,758 (Jan. 15, 1974), as amended, and FAR Subpart 22.14.

b) The “EQUAL OPPORTUNITY FOR WORKERS WITH DISABILITIES” clause at 41 C.F.R. § 60-741.5 is incorporated by reference. If this “Contractor Obligation to Provide Reasonable Accommodation” clause is included in a contract, solicitation, purchase order, CLIN, contract modification, or covered subcontract at any tier with a value that also exceeds or is expected to exceed $15,000, FAR 52.222-36 is also incorporated by reference. If any or all of the services are to be performed on a Government installation (excluding the expectation of contractor or covered subcontractor employees being on the Government installation solely for the purpose of meeting attendance), FAR 52.237-1 is also incorporated by reference.

c) In compliance with 5 U.S.C. § 3109 and FAR 37.104, this is a nonpersonal services contract. The nonpersonal services nature of this contract is maintained even if the services provided are closely associated with the performance of inherently governmental functions as determined under FAR Subpart 7.5 and OFPP Policy Letter 11-01 (Sep. 12, 2011), or even if this contract involves advisory and assistance services as defined under 31 U.S.C. § 1105(g), or even if the services under this contract are considered vital to the Government and must be continued without interruption as provided under FAR 37.110(c). Additionally, all services shall be performed by contractor and subcontractor employees under the supervision of the contractor or subcontractor, the Government has no authority to discharge contractor or subcontractor
employees, the Government shall not direct wages to contractor or subcontractor employees, the relationship between the Government and contractor or subcontractor employees is limited to the scope and duration of the contract, and it is understood between the parties that nothing in this contract shall be construed as to create an employer-employee relationship between the Government and any employee of the contractor or any subcontractors. Consequently, in no way shall a contractor or subcontractor employee be considered an employee of the Government.

d) The Contractor shall ensure that all of its employees and covered subcontractor employees working on this contract are advised that the employees must make requests for a reasonable accommodation to their respective employers, and not to the Government.

e) For contractor and covered subcontractor employees performing on a Government installation, the Government is responsible for maintaining facility accessibility to a level required by the Architectural Barriers Act of 1968, as amended, 42 U.S.C. §§ 4151 et seq. However, the Contractor and covered subcontractor are responsible for furnishing any reasonable accommodation for a contractor or covered subcontractor employee to perform on the Government installation. Further, in accordance with FAR 52.237-1, the cost of any reasonable accommodation shall not be charged to the Government unless the cost was contemplated and clearly presented by the offer, quote, or bid which the Contractor submitted to obtain this contract. In any event, a reasonable accommodation cost cannot be included in the cost basis that is used by the Contractor or covered subcontractor to calculate fee or profit. Furthermore, the Government’s disallowance of a reasonable accommodation cost cannot be cause for the Contractor or covered subcontractor to claim an undue hardship in providing a reasonable accommodation.

f) The Contractor shall notify the Contracting Officer’s Representative and Contracting Officer for this contract of any reasonable accommodation offered to or sought by a contractor employee or covered subcontractor employee that will adversely impact performance of this contract.

g) Nothing in this clause shall be construed as to prevent a contractor employee or covered subcontractor employee from bringing forward a disability discrimination complaint to the appropriate Equal Employment Opportunity Office, regional or area office for the U.S. Department of Labor Office of Federal Contract Compliance Programs (OFCCP), or to the U.S. Department of Labor Deputy Assistant Secretary for Federal Contract Compliance (DOL-DAS-FCC). In accordance with FAR 22.1406, the Contracting Officer shall forward any disability discrimination complaint against a contractor or covered subcontractor to the DOL-DAS-FCC.

h) The Contractor shall ensure that all of its employees and covered subcontractor employees working on this contract are informed as to the substance of this clause. Nothing in this clause shall limit the Government’s rights in any way under any other provision of this contract, including, but not limited to, the Government’s right to inspect and accept the services to be performed under this contract. The substance of this clause shall be included in all covered subcontracts at any tier.

i) In fulfillment of the Contracting Officer’s obligation at FAR 22.1404, the Contractor and covered subcontractors are furnished with the appropriate notices for posting in employee/applicant-viewable, conspicuous places. These notices are accessible at the U.S. Department of Labor

j) The Contractor and any covered subcontractor recognize that failure to comply with the obligations set forth under the ADA, Section 503 of the Rehabilitation Act of 1973, Executive Order 11,758, and/or FAR Subpart 22.14 can constitute sufficient cause for the Government to withhold progress payments, terminate or suspend this contract, debar the Contractor or covered subcontractor, or pursue any other remedy provided for under this contract or the Contract Disputes Act of 1978, as amended.
